

CH2MHILL Just the Facts

Innovative

Around the world and close to home, CH2M HILL employees provide the full spectrum of consulting, program management, design, construction, and operations solutions that support your project goals and improve quality of life.

Respectful

There's more to a project than just showing up to work every day. Because our work affects our clients, communities, and environment, we look at the long-term outcome of every decision and what it means for everything it touches.

Holistic

You have a vision—and CH2M HILL provides the solutions that support it. Whatever your project requirements may be, we can help you meet them with solutions that reflect the big picture of your goals and needs.

Focused on You

Innovation and experience attuned to your vision. Respect for you and the people affected by your project. The breadth of services you need. The result is success for your goals, your community, and your future.

Safety

CH2M HILL is committed to exemplary health, safety, security, and environmental performance—all part of what we call HSSE. A focus on HSSE is important to us to protect our people and all aspects of our projects every day. We call our commitment Target Zero because our efforts are focused toward a zero-incident goal. We emphasize understanding and recognizing unsafe behaviors and situations, keeping field and office staff and visitors aware of risks, and actively learning about the ways we can work smarter and stay safer. Target Zero is a beneficial goal for all our employees and clients. Incorporating Target Zero into our business at all levels leads to lower operating costs, less waste, better performance, and clients who trust us and want to keep working with us. We count on every employee to keep safety at the forefront of their thoughts, and to help us continue to reach for Target Zero.

Thank you for making these important values your own.

Lee McIntire

CEO, CH2M HILL Companies Ltd.
